*Project Rating

- 1 - the project is functioning as expected and I am (we are) fully satisfied with it; the modifications / additions meets mutually agreed-upon requirements
- 2 - the project needs cosmetic improvements (i.e., position/layout of text, color/size issues, navigation between elements, etc.)
- 3 - the project needs functional improvements (i.e., user input / system changes not read/checked automatically, etc.) or lacks at least one required functionality.
